APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. If well is flowing, a valve must be installed and maintained to prevent waste. The well shall be equipped with a 2-inch opening and a parshall flume. The location of the latter to be approved by the State Engineer. It is understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. This source is located within an area designated by the State Engineer pursuant to NRS 534.030; therefore, the State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.7 cubic feet per second, but not to exceed a yearly duty of 5.0 acre-feet per acre of land irrigated from any and/or all sources.

Actual construction work shall begin on or before February 20, 1969

Proof of commencement of work shall be filed before March 20, 1969

Work must be prosecuted with reasonable diligence and be completed on or before February 20, 1970

Proof of completion of work shall be filed before March 20, 1970

Application of water to beneficial use shall be made on or before February 20, 1972

Proof of the application of water to beneficial use shall be filed on or before March 20, 1972

Map in support of proof of beneficial use shall be filed on or before March 20, 1972

Commencement of work filed APR 1, 1969

Completion of work filed APR 14 1970
